

Kevin Wood Software Engineer
kevin.j.wood@gmail.com
(206) 670-7389
Redmond, WA 98052

Summary: Results-driven software engineer with over 10 years of experience in full-stack development, specializing in C#, .NET, and web technologies. Proven track record in designing and delivering scalable applications, optimizing performance, and leading cross-functional teams. Strong problem-solving skills combined with a dedication to continuous improvement.

Work Experience:

Software Engineer Object Technology Solutions Incorporated at Micron April 2018 to November 2018

- Upgraded an existing C# ASP.NET, MVC, and WebApi codebase, removing memory leaks and ensuring proper documentation.
- Optimized memory management by leveraging Entity Framework to flush objects to the backing MySQL database.
- Participated in cross-functional teams to deliver high-quality software solutions, meeting project deadlines.

Software Developer Idaho State Billing Services - Boise, ID August 2017 to November 2017

- Maintained and enhanced Individual Education Plan software using C#, JavaScript, JQuery, XSL, and SQL.
- Collaborated with stakeholders to gather requirements and implemented new features, improving the user experience for the 2017 school year.
- Conducted thorough testing and debugging to ensure software stability and reliability.

Software Engineer II Test Lead, Core Firmware Adecco Technical at HP - Boise, ID October 2014 to August 2016

- Led and managed a global test team in verifying the quality of core firmware for business line printer, scanner, and multi-function products.
- Utilized C# and .NET to design and execute comprehensive test strategies, ensuring backward compatibility and high-quality releases.
- Coordinated with global partners to align testing efforts and maintain consistent test pass rates across product platforms.

Senior Software Engineer ArmgaSys Inc - Nampa, ID November 2011 to 2014

- Developed and maintained robust C# applications using ASP.NET, MVC, and WebApi, ensuring high performance and scalability.
- Implemented memory leak detection and removal techniques, resulting in a 30% reduction in memory usage.
- Collaborated with a team of developers to enhance the Entity Framework integration, improving data persistence and retrieval efficiency in MySQL.

Sargent, United States Marine Corps

Education:

Bachelor of Science in Computer Science Western Washington University 2007 to 2010

Associates of Science in Computer Science Skagit Valley College 2007

Skills:

- Programming: C#, .NET, WCF, WPF, LINQ, XAML, SQL, PowerShell
- Web Technologies: HTML, CSS, JavaScript, Angular.js, Backbone.js, JQuery, ASP.NET, Entity Framework, nHibernate, Selenium Webdriver, XML, SOAP, REST
- Tools: Git, SVN, Team City, Visual Studio, ALM, SQL Server, Jenkins, Grunt, SSRS
- Problem-Solving, Leadership, Analytical Skills
